

## Product Specification

### CAPB

#### Description

CAPB is an aqueous solution of a coco amido propyl dimethyl betaine. This grade is a high quality product which has very low levels of impurities therefore reducing the potential for irritation.

#### Characteristics

##### Physical

##### *Typical properties:*

Appearance at 25°C	Liquid
Colour	Pale yellow
Odour	Nearly odour free
Density @ 20°C	1.05 g/cm <sup>3</sup>

##### Chemical

##### *Specification:*

Active matter	29 – 31 %
Free amido amine	0.5% max
Sodium chloride	6.0% max
pH (5% solution)	4.0 – 6.0
Sodium monochloroacetate	5 ppm max
Colour (Hazen)	200 max
Free Fatty Acid	0.5% max

*Analytical methods are available on request*

CAS No:	61789-40-0
E.I.N.E.C.S No:	263 058 8 or 931 513 6
INCI Name	Cocamidopropyl Betaine
